

AASHIRVAD K VARGHESE

Junior Data Analyst • Junior Data Scientist

+91 96564 71124 | aashirvadkv@gmail.com | LinkedIn | GitHub | Portfolio | Kerala, India

PROFESSIONAL SUMMARY

Analytics professional with a B.Com in Accounts & Data Science. Hands-on experience across data validation, cleaning, exploratory data analysis, MIS reporting, and business-insight generation using Python, SQL, Power BI, and Excel. Experienced in applying analytical and machine-learning techniques through academic, freelance, and project-based work, with a focus on translating data into structured business insights.

WORK EXPERIENCE

Project Management Consultant – Data & Reporting | Arcite Project Management Consultancy

Full-Time Internship | Sep 2025 – Mar 2026

- Monitored ML project datasets end-to-end, performing data validation and anomaly detection to improve reporting accuracy.
- Conducted EDA, data cleaning, and statistical analysis on raw datasets to ensure data quality before model training.
- Generated structured MIS reports in Excel and Word; tracked KPIs and delivered business insights to stakeholders.
- Coordinated data collection and version control via GitHub to ensure on-time, accurate project delivery.

Banking Intern – Operations & Compliance | Co-operative Bank Chathanoor

2024

- Monitored daily transactions and flagged reconciliation errors in ledger records, improving data accuracy in financial reporting and documentation.
- Processed KYC documentation for 100+ accounts with zero compliance errors; supported loan processing under rotational shift operations.

Freelance ML & Data Science Projects | Independent / Remote

2026 – Present

- Developed and deployed end-to-end ML solutions; applied EDA, statistical analysis, and feature engineering to drive model performance.
- Automated data pipelines with Python; built interactive data-visualization dashboards via Streamlit and deployed APIs using Flask.

PROJECTS

Fraud Detection System — B.Com Final-Year Project

Data cleaning and SMOTE for class imbalance; Logistic Regression and Random Forest for fraud classification, with EDA-driven feature selection.

Resume ATS Scoring System — Freelance Project

NLP pipeline using TF-IDF and cosine similarity to automate resume-to-job-description alignment scoring; built for junior students.

Retail Sales Analysis — Python & Power BI

Analyzed the Sample Superstore dataset using Python (Pandas, NumPy, Matplotlib) and Power BI to uncover sales, profitability, and regional performance trends.

TECHNICAL SKILLS

Languages & Libraries: Python (Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn), SQL

Analytics & Visualization: Tableau, Power BI, Data Visualization, EDA, Statistical Analysis

Data Process: Data Collection, Data Cleaning, Data Validation, Data Preparation, Feature Engineering

Reporting & MIS: MIS Reporting, Business Insights, Documentation, Data-Driven Decision Making, Streamlit, Flask

AI & Automation: Generative AI, Prompt Engineering, AI Productivity Tools, ML Fundamentals

Tools & Platforms: GitHub, VS Code, Jupyter Notebook, MS Word, MS Excel, MS PowerPoint

EDUCATION

Bachelor of Commerce (Accounts & Data Science)

St. John's College, Anchal, Kerala, India | 2022–2025

CERTIFICATIONS

- Google Data Analytics Professional Certificate — Google / Coursera, 2026
- IBM Data Science Professional Certificate — IBM / Coursera, 2026
- Google AI Essentials — Google / Coursera, 2026
